Product Summary

- Protek Wood Preserver ++ - 5L - 2 coats advised

Features:

- Gives full protection out of ground contact for 5 years - Effective against Blue Stain - Effective against Moulds - Effective against Wood Destroying Fungi e.g. wet & dry rot. - Effective against wood boring insects - Excellent coverage at 6 - 8 m2 per litre - Water-based - Low VOC

It is designed to be a wood primer and needs a weather resistant top-coat. Either water-based or oil-based top coats can be used.

This latest Wood Preserver formulation is propiconazole free and is suitable for DIY and professional use. It includes the insecticide permethrin so is not to be used on beehives or bee keeping equipment, as it is hazardous to bees. As well as active ingredients against fungi and insects it contains an alkyd binder that forms a primer coat with excellent application properties and a short drying time.

Product Description

Water based long lasting protection against wood destroying fungi, wood discolouring and insects. For all outside wood, which is not in direct contact to soil or surface water.

6-8M2 coverage per litre.
